This financial report covers Five Oceans World Fund as an individual entity.

The Responsible Entity of Five Oceans World Fund is Challenger Managed Investments Limited (ABN 94 002 835 592). The Responsible Entity's registered office is Level 15, 255 Pitt Street, Sydney NSW 2000.

Financial highlights

Financial highlights for Five Oceans World Fund (the 'Trust') include the following:

Performance

The table below shows historical discrete annual return performance of the Trust for the past five years. Calculation of performance is after all fees, except any entry fees that have been deducted, and assumes that all distributions were reinvested during that period. The total return is aggregate of capital growth and distribution returns.

	2011 %	2010 %	2009 %	2008 %	2007 %
Seed					
Capital Growth	3.63	10.56	(9.34)	(23.67)	5.91
Distribution of income	-	0.35	9.93	7.35	2.47
Total return (%)	<u>3.63</u>	<u>10.91</u>	<u>0.59</u>	<u>(16.32)</u>	<u>8.38</u>
Professional					
Capital Growth	3.83	10.56	(9.25)	(23.44)	5.91
Distribution of income	0.03	0.68	10.14	7.33	2.47
Total return (%)	<u>3.86</u>	<u>11.24</u>	<u>0.89</u>	<u>(16.11)</u>	<u>8.38</u>
Wholesale					
Capital Growth	3.62	10.59	(7.96)	(23.67)	7.78
Distribution of income	-	0.35	8.59	7.35	1.67
Total return (%)	<u>3.62</u>	<u>10.94</u>	<u>0.63</u>	<u>(16.32)</u>	<u>9.45</u>
Premier					
Capital Growth	3.73	1.02	-	-	-
Distribution of income	0.04	0.42	-	-	-
Total return (%)	<u>3.77</u>	<u>1.44</u>	<u>-</u>	<u>-</u>	<u>-</u>
Alpha (established 2 August 2010)					
Capital Growth	(0.89)	-	-	-	-
Distribution of income	0.12	-	-	-	-
Total return (%)	<u>(0.77)</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

Consistent with the statements in the current product disclosure statement, future performance is not guaranteed. Investors should exercise care in using past performance as a predictor of future performance.

Indirect Cost Ratio (ICR)

The Indirect Cost Ratio (ICR) is the ratio of the Trust's management costs over the Trust's average net assets attributable for the year, expressed as a percentage. The ICR of the various classes of the Trust for the past five years has been:

	2011 %	2010 %	2009 %	2008 %	2007 %
Seed	1.25	1.25	1.28	1.25	1.39
Professional	1.00	1.00	1.03	1.00	1.36
Wholesale	1.25	1.25	1.28	1.50	2.56
Premier	0.96	1.25	-	-	-
Alpha (established 2 August 2010)	0.56	-	-	-	-

The ICR calculation above includes performance fee expense as well as management fees and has been annualised. The out-performance resulted in performance fees being incurred of 0.00% (2010: 0.00%) reflected in the Seed class ICR, 0.00% (2010: 0.00%) reflected in the Professional class ICR, 0.00% (2010: 0.00%) reflected in the Wholesale class ICR, 0.00% (2010: 0.00%) reflected in the Premier class ICR and 0.06% reflected in the Alpha class ICR.

Financial highlights (continued)

Management costs include management fees and other expenses or reimbursements deducted in relation to the Trust, but do not include transactional and operational costs such as brokerage. Management costs are not paid directly by the unitholders of the Trust.

Directors' report

The directors of Challenger Managed Investments Limited, the Responsible Entity of Five Oceans World Fund, present their report together with the financial statements of Five Oceans World Fund (the 'Trust') for the year ended 30 June 2011.

Directors

The following persons held office as directors of Challenger Managed Investments Limited during the year or since the end of the year and up to the date of this report:

BJ O'Connor
BR Benari
PD Rogan
RJ Woods
RW Adams (resigned 25 January 2011)
R Willis (appointed 25 January 2011)

Principal activities

The principal activity of the Trust during the year was to invest in accordance with the provisions of the Trust Constitution.

There were no significant changes in the nature of the Trust's activities during the year.

The Asset Manager for the Trust is Five Oceans Asset Management Pty Limited.

Review and results of operations

During the year, the Trust continued to invest funds in accordance with target asset allocations as set out in the current product disclosure statement which continues to be adhered to. The Trust maintains its strategy of investing in a concentrated portfolio of global equities.

Results

The performance of the Trust, as represented by the results of its operations, was as follows:

	30 June 2011 \$'000	30 June 2010 \$'000
Net operating profit/(loss)	<u>3,114</u>	<u>6,382</u>
Distribution paid and payable	<u>44</u>	<u>279</u>
Distribution (cents per unit) - Seed	<u>-</u>	<u>0.29</u>
Distribution (cents per unit) - Professional	<u>0.03</u>	<u>0.50</u>
Distribution (cents per unit) - Wholesale	<u>-</u>	<u>0.27</u>
Distribution (cents per unit) - Premier	<u>0.04</u>	<u>0.75</u>
Distribution (cents per unit) - Alpha (established 2 August 2010)	<u>0.12</u>	<u>-</u>

Significant changes in state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Trust that occurred during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2011 that has significantly affected, or may significantly affect:

- (i) the operations of the Trust in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Trust in future financial years.

Directors' report (continued)

Likely developments and expected results of operations

The Trust will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Trust and in accordance with the provisions of the Trust's Constitution.

Further information on likely developments in the operations of the Trust and the expected results of those operations have not been included in this report because the Responsible Entity believes it would be likely to result in unreasonable prejudice to the Trust.

Indemnity and insurance of officers

No insurance premiums are paid for out of the assets of the Trust in regards to insurance cover provided to the officers of Challenger Managed Investments Limited. So long as the officers of Challenger Managed Investments Limited act in accordance with the Trust's Constitution and the *Corporations Act 2001*, the officers remain indemnified out of the assets of the Trust against losses incurred while acting on behalf of the Trust. The auditors of the Trust are in no way indemnified out of the assets of the Trust.

Fees paid to and interests held in the Trust by the Responsible Entity or its related entities

Fees paid to the Responsible Entity and its related entities out of Trust property during the year are disclosed in note 11 to the financial statements.

No fees were paid out of Trust property to the directors of the Responsible Entity during the year.

The number of interests in the Trust held by the Responsible Entity or its related entities as at the end of the financial year are disclosed in note 11 to the financial statements.

Interests in the Trust

The movement in units on issue in the Trust during the year is further disclosed in note 5 to the financial statements.

The movement in units on issue in the Trust during the year is set out below:

	30 June 2011 No. '000	30 June 2010 No. '000
Units on issue - 1 July	91,718	77,878
Units issued	107,842	21,951
Units redeemed	(7,431)	(8,111)
Units on issue - 30 June	192,129	91,718

Value of assets

	\$'000	\$'000
Value of Trust assets at 30 June	186,976	78,836

The value of the Trust's assets and liabilities is disclosed in the statement of financial position and derived using the basis set out in note 2 to the financial statements.

Environmental regulation

The operations of the Trust are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Directors' report (continued)

Rounding of amounts to the nearest thousand dollars

The Trust is an entity of the kind referred to in Class Order 98/0100 (as amended) issued by the Australian Securities and Investments Commission relating to the "rounding off" of amounts in the directors' report. Amounts in the directors' report have been rounded to the nearest thousand dollars in accordance with that Class Order, unless otherwise indicated.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 7.

This report is made in accordance with a resolution of the directors.

BJ O'Connor
Director

Sydney
16 September 2011

Auditor's Independence Declaration to the Directors of Five Oceans World Fund

In relation to our audit of the financial report of Five Oceans World Fund for the financial year ended 30 June 2011, to the best of my knowledge and belief, there have been no contraventions of the auditor independence requirements of the *Corporations Act 2001* or any applicable code of professional conduct.

The above statement of cash flows should be read in conjunction with the accompanying notes.

1 General information

These financial statements cover Five Oceans World Fund (the 'Trust') as an individual entity. The Trust is an Australian registered scheme, and was constituted on 21 November 2005. The Trust will terminate on 21 November 2085 unless terminated earlier in accordance with the provisions of the Trust Constitution.

The financial statements were authorised for issue by the directors on 16 September 2011.

The nature of the operating and principal activities of the Trust are described in the Directors' report.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with the Trust's Constitution, Australian Accounting Standards, and the *Corporations Act 2001* in Australia.

The financial statements are presented in Australian dollars and are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets and net assets attributable to unitholders. The amount expected to be recovered or settled in relation to these balances cannot be reliably determined.

Statement of compliance

The financial statements have been prepared in accordance with the Australian Accounting Standards as issued by the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board.

(b) Financial instruments

(i) *Classification*

The Trust's investments are classified as at fair value through profit or loss. They comprise:

- Financial instruments held for trading
Derivative financial instruments such as futures, forward contracts, options and equity swaps are included under this classification. The Trust does not designate any derivatives as hedges in a hedging relationship.
- Financial instruments designated at fair value through profit or loss upon initial recognition
These include financial assets that are not held for trading purposes and which may be sold. These are investments in exchange traded debt and equity instruments, unlisted trusts and unlisted equity instruments.

(ii) *Recognition/derecognition*

The Trust recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cashflows from the investments has expired or the Trust has transferred substantially all risks and rewards of ownership.

2 Summary of significant accounting policies (continued)

(b) Financial instruments (continued)

(iii) Measurement

Financial assets and liabilities held at fair value through profit or loss

Financial assets and liabilities held at fair value through profit and loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments held at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the statement of comprehensive income.

- Fair value in an active market

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices at the close of statement of financial position date, while financial liabilities are priced at current offer prices.

- Fair value in an inactive or unquoted market

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the balance sheet date applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the balance sheet date. Fair values for unquoted equity investments are estimated, if possible, using applicable pricing/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange-traded is estimated at the amount that the Trust would receive or pay to terminate the contract at the balance sheet date taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The fair value of an option contract is determined by applying the Black-Scholes option valuation model.

Investments in other unlisted unit trusts are recorded at the redemption value per unit as reported by the managers of such trusts.

(iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(c) Net assets attributable to unitholders

Units are redeemable at the unitholders' option and are classified as financial liabilities due to mandatory distributions. The units can be put back to the Trust at any time for cash based on the redemption price. The fair value of redeemable units is measured at the redemption amount that is payable (based on the redemption unit price) at the reporting date if unitholders exercised their right to redeem units in the Trust.

2 Summary of significant accounting policies (continued)

(d) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

Payments and receipts relating to the purchase and sale of investment securities held for trading are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Trust's main income generating activity.

Payments and receipts relating to the purchase and sale of investment securities designated at fair value are classified as cash flows from investing activities, as movements in the fair value of these securities represent the Trust's investment activity.

(e) Investment income

Interest income and expenses are recognised in the statement of comprehensive income for all debt instruments that are not held at fair value through profit or loss using the effective interest method. Other changes in fair value for such instruments are recorded in accordance with the policies described in note 2(b).

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Trust estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

Dividend income is recognised on the ex-dividend date when the right to receive payment is established with any related foreign withholding tax recorded as an expense.

Dividends declared on securities sold short are recorded as a dividend expense on the ex-dividend date.

Trust distributions (including distributions from cash management trusts) are recognised on a present entitlements basis as the Trust is presently entitled to the distributable income of its investee trusts.

(f) Expenses

All expenses, including Responsible Entity's fees, are recognised in the statement of comprehensive income on an accruals basis.

(g) Income tax

Under current legislation, the Trust is not subject to income tax as unitholders are presently entitled to the income of the Trust.

Financial instruments held at fair value may include unrealised capital gains. Should such a gain be realised, that portion of the gain that is subject to capital gains tax will be distributed so that the Trust is not subject to capital gains tax.

Realised capital losses are not distributed to unitholders but are retained in the Trust to be offset against any realised capital gains. If realised capital gains exceed realised capital losses, the excess is distributed to unitholders.

The benefit of imputation credits and foreign tax paid are passed on to unitholders.

2 Summary of significant accounting policies (continued)

(g) Income tax (continued)

The Trust currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the statement of comprehensive income.

(h) Distributions

In accordance with the Trust's Constitution, the Trust distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestment. The distributions are recognised in the statement of comprehensive income as finance costs attributable to unitholders.

(i) Change in net assets attributable to unitholders

Income not distributed is included in net assets attributable to unitholders. Movements in net assets attributable to unitholders are recognised in the statement of comprehensive income as finance costs.

(j) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Trust by third parties such as investment management fees have been passed onto the Trust. The Trust qualifies for Reduced Input Tax Credits (RITC) at a rate of 75% hence investment management fees and other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

(k) Receivables

Receivables may include amounts for dividends, interest and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the reporting date from the time of last payment in accordance with the policy set out in note 2(e) above. Amounts are generally received within 30 days of being recorded as receivables.

Receivables include such items as RITC and application monies receivable from unitholders.

(l) Payables

Payables includes liabilities and accrued expenses owing by the Trust which are unpaid as at balance date.

Trades are recorded on trade date, and normally settled within three business days. Purchases of financial instruments that are unsettled at reporting date are included in payables.

The distribution amount payable to unitholders as at the reporting date is recognised separately on the statement of financial position when unitholders are presently entitled to the distributable income under the Trust's Constitution.

(m) Applications and redemptions

Applications received for units in the Trust are recorded net of any entry fees payable prior to the issue of units in the Trust. Redemptions from the Trust are recorded gross of any exit fees payable after the cancellation of units redeemed.

Unit redemption prices are determined by reference to the net assets of the Trust divided by the number of units on issue.

2 Summary of significant accounting policies (continued)

(n) Foreign currency

Transactions in foreign currencies are translated into presentation currency, Australian dollars, at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into Australian dollars at the foreign exchange rate ruling at the reporting date.

Foreign exchange differences arising on translation are recognised in the Statement of Comprehensive Income. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the transaction. Non-monetary items measured at fair value in a foreign currency shall be translated to Australian dollars using the exchange rates ruling at the date when the fair value was determined.

(o) Use of estimates

For the majority of the Trust's financial instruments, quoted market prices are readily available. However, certain financial instruments, for example over-the-counter derivatives or unquoted securities, are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Responsible Entity, independent of the area that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Models are calibrated by back-testing to actual transactions to ensure that Trust outputs are reliable.

For certain other financial instruments, including amounts due from/to brokers and payables, the carrying amounts approximate fair value due to the short-term nature of these financial instruments.

(p) Unit prices

Unit prices are determined in accordance with the Trust's Constitution and are calculated as the net assets attributable to unitholders of the Trust, less estimated costs, divided by the number of units on issue, on a forward pricing basis, as determined by the Responsible Entity.

(q) Terms and conditions on units

Each unit issued confers upon the unitholder an equal interest in the Trust and is of equal value per class. A unit does not confer any interest in any particular asset or investment of the Trust. Unitholders have various rights under the Constitution and the Corporations Act 2001, including the right to:

- have their units redeemed;
- receive income distributions;
- attend and vote at meetings of unitholders; and
- participate in the termination and winding of the Trust.

The rights, obligations and restrictions attached to each unit are identical in all respects.

2 Summary of significant accounting policies (continued)

(r) New accounting standards and interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2011 reporting periods. The directors' assessment of the impact of these new standards (to the extent relevant to the Trust) and interpretations is set out below:

(i) AASB 9 *Financial Instruments* and AASB 2009-11 *Amendments to Australian Accounting Standards arising from AASB 9* and AASB 2010-7 *Amendments to Australian Accounting Standards arising from AASB 9 (effective from 1 January 2013)*

AASB 9 *Financial Instruments* addresses the classification and measurement of financial assets. The standard is not applicable until 1 January 2013. The current four categories of financial assets, stipulated in AASB 139 *Financial Instruments: Recognition and Measurement*, will be replaced with two measurement categories: fair value and amortised cost. AASB 9 only permits the recognition of fair value gains/(losses) in other comprehensive income if they relate to equity investments that are not held for trading. Fair value gains/(losses) on debt investments, for example, will therefore have to be recognised directly in profit or loss. The Trust does not expect any significant impact on the Trust's financial statements arising from an adoption of the Standard.

(ii) AASB 2010-6 *Amendments to Australian Accounting Standards - Disclosures on Transfers of Financial Assets (effective from 1 July 2011)*

In November 2010, the AASB made amendments to AASB 7 *Financial Instruments: Disclosures on Transfers of Financial Assets* which amends AASB 1 *First-time Adoption of Australian Accounting* and AASB 7 *Financial Instruments: Disclosures* to introduce additional disclosures in respect of risk exposures arising from transferred financial assets. The amendments will affect particularly entities that sell, factor, securitise, lend or otherwise transfer financial assets to other parties. The amendments will not have any impact on the Trust's disclosures. The Trust intends to apply the amendment from 1 July 2011.

(iii) *Amendments to AASB 2010-4 Further amendments to Australian Accounting Standards arising from the Annual Improvements Project (effective from 1 July 2010 / 1 January 2011)*

In June 2010, the AASB made a number of amendments to Australian Accounting Standards as a result of the IASB's annual improvements project. The Trust does not expect that any adjustments will be necessary as the result of applying the revised rules.

(iv) *IFRS 13 Fair value measurement (effective from 1 January 2013)*

In May 2011, the IASB issued IFRS 13 Fair value measurement, which establishes a single source of guidance under IFRS for determining the fair value of assets and liabilities. IFRS 13 does not change when an entity is required to use fair value, but rather, provides guidance on how to determine fair value under IFRS when fair value is required or permitted by IFRS. Application of this definition may result in different fair values being determined for the relevant assets. IFRS 13 also expands the disclosure requirements for all assets or liabilities carried at fair value, including information about the assumptions made and the qualitative impact of those assumptions on the fair value determined. The valuation of a financial instrument will be assessed based on the facts at the date of initial application. The AASB is yet to release the Australian equivalent standard, but the Trust is in the process of assessing the impact based on the international standards.

(s) Rounding of amounts

The Trust is an entity of the kind referred to in Class Order 98/0100 (as amended), issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the financial report. Amounts in the financial report have been rounded off to the nearest thousand dollars in accordance with that Class Order, unless otherwise indicated.

3 Net gains/(losses) on financial instruments held at fair value through profit or loss

Net gains/(losses) recognised in relation to financial assets and liabilities held at fair value through profit or loss:

	30 June 2011 \$'000	30 June 2010 \$'000
Designated at fair value	21,780	9,600
Held for trading at fair value	(5,398)	(1,783)
Net gains/(losses) on financial instruments held at fair value through profit or loss	<u>16,382</u>	<u>7,817</u>

4 Auditor's remuneration

The cost incurred for auditing the financial report of the Trust is paid directly by the Responsible Entity. The audit fees paid/payable by the Responsible Entity for the year were \$6,750 (2010: \$6,750).

5 Net assets attributable to unitholders

Movements in number of units and net assets attributable to unitholders during the year were as follows:

As stipulated within the Trust Constitution, each unit represents a right to an individual share in the Trust and does not extend to a right to the underlying assets of the Trust. There are five classes of units and each unit has the same rights, preferences and restrictions attaching to it as all other units of the Trust.

	30 June 2011 No. '000	30 June 2010 No. '000	30 June 2011 \$'000	30 June 2010 \$'000

Total net assets attributable to unitholders	<u>183,877</u>	<u>75,457</u>

Capital risk management

Daily applications and redemptions are reviewed relative to the liquidity of the Trust's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Trust's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unitholders.

The Trust monitors the level of daily applications and redemptions relative to the liquid assets in the Trust. Sufficient liquid assets are maintained within the Trust. Liquid assets include cash and cash equivalents and listed equity securities.

6 Distributions to unitholders

Timing of distributions

The distributions for the year were as follows:

	30 June 2011 \$'000	30 June 2011 CPU	30 June 2010 \$'000	30 June 2010 CPU
Distributions - Seed				
30 June annual payable	-	-	139	0.29
	<u>-</u>		<u>139</u>	
	30 June 2011 \$'000	30 June 2011 CPU	30 June 2010 \$'000	30 June 2010 CPU
Distributions - Professional				
30 June annual payable	1	0.03	11	0.50
	<u>1</u>		<u>11</u>	
	30 June 2011 \$'000	30 June 2011 CPU	30 June 2010 \$'000	30 June 2010 CPU
Distributions - Wholesale				
30 June annual payable	-	-	101	0.27
	<u>-</u>		<u>101</u>	
	30 June 2011 \$'000	30 June 2011 CPU	30 June 2010 \$'000	30 June 2010 CPU
Distributions - Premier				
30 June annual payable	32	0.04	28	0.75
	<u>32</u>		<u>28</u>	
	30 June 2011 \$'000	30 June 2011 CPU	30 June 2010 \$'000	30 June 2010 CPU
Distributions - Alpha (established 2 August 2010)				
30 June annual payable	11	0.120	-	-
	<u>11</u>		<u>-</u>	

The component of the final distribution for the year which was unpaid at the reporting date is shown in the statement of financial position.

7 Financial assets held at fair value through profit or loss

	Notes	30 June 2011 \$'000	30 June 2010 \$'000
Held for trading			
Derivatives	9	<u>1,208</u>	<u>704</u>

Total designated at fair value through profit or loss		<u>-</u>	<u>2,373</u>
Total financial liabilities held at fair value through profit or loss		<u>1,149</u>	<u>2,681</u>

An overview of the risk exposures relating to financial liabilities at fair value through profit or loss is included in note 10.

9 Derivative financial instruments

In the normal course of business the Trust enters into transactions in various derivative financial instruments which have certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include many different instruments, such as forwards, futures and options. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Trust's portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and includes:

- hedging to protect an asset or liability of the Trust against a fluctuation in market values or to reduce volatility;

9 Derivative financial instruments (continued)

- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Trust.

The Trust holds the following derivative instruments:

(a) Futures

Futures are contractual obligations to buy or sell commodity instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are settled daily with the exchange. Interest rate futures are contractual obligations to receive or pay a net amount based on changes in interest rates at a future date at a specified price, established in an organised commodity market.

(b) Options

An option is a contractual arrangement under which the seller (writer) grants the purchaser (holder) the right, but not the obligation, either to buy (a call option) or sell (a put option) at or by a set date or during a set period, a specific amount of securities or a financial instrument at a predetermined price. The seller receives a premium from the purchaser in consideration for the assumption of future securities price risk. Options held by the Trust are exchange-traded. The Trust is exposed to credit risk on purchased options to the extent of their carrying amount, which is their fair value. Options are settled on a gross basis.

(c) Forward currency contracts

Forward currency contracts are primarily used by the Trust to hedge against foreign currency exchange rate risks on its non-Australian dollar denominated trading securities. The Trust agrees to receive or deliver a fixed quantity of foreign currency for an agreed upon price on an agreed future date. Forward currency contracts are valued at the prevailing bid price at the end of each reporting period. The Trust recognises a gain or loss equal to the change in fair value at the end of each reporting period.

(d) Swaps

An equity swap is an agreement between two parties to exchange their interest obligations (payments) or receipts at set intervals on a notional principal amount over an agreed time period.

The fair value of equity swaps is the estimated amount that the entity would receive or pay to terminate the swap at the end of the reporting period, taking into account current equity prices and the current creditworthiness of the swap counterparties.

30 June 2011

	Contract/ notional \$'000	Fair Values

10 Financial risk management

(a) Overview

The Trust's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The Trust's overall risk management programme focuses on ensuring compliance with the Trust's Product Disclosure Statement and seeks to maximise the returns derived for the level of risk to which the Trust is exposed. The Trust may use derivative financial instruments to alter certain risk exposures. The Responsible Entity is responsible for identifying and controlling the risks that arise from these financial instruments.

The allocation of assets between the various types of financial instruments is determined by the Trust's Fund Manager who manages the Trust's assets to achieve the Trust's investment objectives.

Divergence from target allocations and the composition of the assets is monitored on a regular basis.

The Responsible Entity of the Trust is aware of the risks associated with the business of investment management. A financial risk management framework has been established to ensure that procedures and controls adequately manage the risks arising from current business activities. Central control include (but are not limited to):

- clear policies and procedures covering operations;
- post-trade investment compliance monitoring;
- segregation of the dealing and investment management function from the administration and settlement function;
- an independent service provider for the valuation of securities; and
- a compliance function with a separate reporting line from the Funds Management team.

As part of the risk management framework, the Responsible Entity is subject to regular reporting and committee meetings regarding risk and compliance issues. The purpose is to facilitate a flow of information between the business and the Responsible Entity's Board and Committees. Any material matters identified are promptly investigated and reported.

As part of its risk management strategy, the Trust may use derivatives including Australian exchange traded derivatives such as index futures and warrants, to manage exposures resulting from changes in index prices, equity risks and exposures arising from forecast transactions.

There are no changes in the strategies used to manage the financial risks from the previous reporting period.

10 Financial risk management (continued)

(b) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Trust's income or the value of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

The Trust is exposed to market risks influencing investment valuations. The Trust may utilise derivatives to manage this risk.

(i) Price risk

Price risk is the risk that the value of an instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market. Part (c) below sets out how this component of price risk is managed and measured. Investments are classified in the statement of financial position as at fair value through profit or loss. All securities investments present a risk of loss of capital. Except for equities sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from equities sold short can be unlimited.

As the majority of the Trust's investments are carried at fair value with fair value changes recognised in the statement of comprehensive income, all changes in market conditions will directly affect net investment income.

The fund manager mitigates this price risk through diversification and a rigorous selection of securities and other financial instruments within specified limits set by the Board. Part (c) of this note summarise the impact of an increase/decrease of the MSCI World Index on the Trust's net assets attributable to unitholders at 30 June 2011. The analysis is based on the assumptions that the index increased by 10% (2010: 10%) and decreased by 10% (2010: 10%) with all other variables held constant and that the fair value of the Trust's portfolio of equity securities and derivatives moved according to the historical correlation with the index. The impact mainly arises from the reasonably possible change in the fair value of listed equities, unlisted unit trusts and equity derivatives.

Daily monitoring of trade restrictions and derivative exposure against limits is undertaken with any breach of these limit restrictions reported.

(ii) Foreign exchange risk

Trusts that invest in international assets are exposed to foreign exchange risk. Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Fund managers may enter into derivatives contracts (such as forwards, swaps, options and futures) through approved foreign exchange dealers to minimise risk. However, the use of these contracts must be consistent with the investment strategy and restrictions of each Trust, and agreed acceptable level of foreign exchange risk.

10 Financial risk management (continued)

(b) Market risk (continued)

(ii) Foreign exchange risk (continued)

The table below summarises the Trust's assets and liabilities that are denominated in a currency other than the Australian dollar.

30 June 2011	Australian Dollars A\$'000	US Dollars A\$'000	Euro A\$'000	Japanese Yen A\$'000	British Pounds A\$'000	Other currencies A\$'000	Total A\$'000

(iii) Cash flow and fair value interest rate risk

Interest rate risk is the risk that the fair value of future cashflows of a financial instrument will fluctuate because of changes in market interest rates.

The majority of the Trust's financial instruments are non-interest bearing with only cash and cash equivalents being directly subject to interest rate risk.

(c) Summarised sensitivity analysis

The following table summarises the sensitivity of the Trust's operating profit and net assets attributable to unitholders to price risk, interest rate risk and foreign exchange risk for financial assets and liabilities held at balance date. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical correlation of the Trust's investments with the relevant benchmark, that is the MSCI World Index. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Trust invests. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

10 Financial risk management (continued)

(c) Summarised sensitivity analysis (continued)

30 June 2010	(525)	500	(274)	377

(d) Credit risk

Credit risk represents the risk that the counterparty to a financial instrument will fail to discharge an obligation and cause the Trust to incur a financial loss.

With respect to credit risk arising from the financial assets of the Trust, other than derivatives, the Trust's exposure to credit risk arises from default of the counterparty, with the current exposure equal to the fair value of these instruments as disclosed in the statement of financial position. This does not represent the maximum risk exposure that could arise in the future as a result of changes in values, but best represents the current maximum exposure at the reporting date.

Credit risk is not considered to be significant to the Trust as the Trust does not hold any direct investments in debt securities or have significant receivables.

(e) Liquidity risk

Liquidity risk is the risk that the Trust will not be able to meet its financial obligations as they fall due.

The Trust's Product Disclosure Statement provides for daily redemption of units and it is therefore exposed to liquidity risk of meeting unitholders' redemption at any time.

This risk is controlled through the Trust investing the majority of its assets in investments that are traded in an active market and investing only a limited proportion of its assets in investments not actively traded on a stock exchange.

The Trust's investments are considered to be readily realisable.

10 Financial risk management (continued)

(e) Liquidity risk (continued)

The investment management process includes the consideration of liquidity, both in terms of market quality and cash flow. In asset construction, securities/investments (including derivatives) are only purchased that meet investment criteria and this includes the assessment of saleability in different market conditions. Before entering into a transaction, consideration is given (among others):

- whether the purpose of the investment is consistent with the investment strategy of the Trust;
- the ease of selling the security should market conditions change unfavourably;
- whether there are sufficient assets to cover the underlying liabilities of that transaction; and
- the overall liquidity level for the Trust.

Under the terms of its Constitution, the Trust has the ability to manage liquidity risk by delaying redemptions to unitholders, if necessary, until the funds are available to pay them.

Maturity analysis for financial liabilities

Financial liabilities for the Trust comprise trade and other payables, derivative instruments and securities sold short, distributions payable, and net assets attributable to unitholders. Trade and other payables and distributions payable have no contractual maturities but are typically settled within 30 days. All derivative instruments have contractual maturities of less than 12 months.

Net assets attributable to unitholders are entirely payable on demand.

(f) Fair value estimation

All financial assets and financial liabilities included in the statement of financial position are carried at fair value.

The carrying amounts of all the Trust's financial assets and financial liabilities at the reporting date approximated their fair values.

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments held at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the statement of comprehensive income.

The Trust values its investments in accordance with the accounting policies set out in note 2. For the majority of its investments, the Trust relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets held by the Trust is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price. When the Trust holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair value for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

(g) Fair value hierarchy

The Trust classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

10 Financial risk management (continued)

(g) Fair value hierarchy (continued)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes "observable" requires significant judgement by the Responsible Entity. The Responsible Entity considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The table below sets out the Trust's financial assets (by class) measured at fair value according to the fair value hierarchy.

As at 30 June 2011	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets

As at 30 June 2010	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial liabilities				
Financial liabilities held for trading:				
Equity swaps	-	(45)	-	(45)
Forward currency contracts	-	(228)	-	(228)
Options	(35)	-	-	(35)
Financial liabilities designated at fair value through profit or loss at inception:				
Equity securities sold short	(2,373)	-	-	(2,373)
Total	(2,408)	(273)	-	(2,681)

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include over the counter derivatives such as futures, forward contracts, options and equity swaps. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

11 Related party transactions

Responsible Entity

The Responsible Entity of Five Oceans World Fund is Challenger Managed Investments Limited whose immediate parent company is Challenger Funds Management Holdings Pty Limited and ultimate parent company is Challenger Limited.

Key management personnel

(a) Directors

Key management personnel includes persons who were directors of Challenger Managed Investments Limited at any time during the year and up to the date of the report as follows:

BJ O'Connor
BR Benari
PD Rogan
RJ Woods
RW Adams (resigned 25 January 2011)
R Willis (appointed 25 January 2011)

(b) Other key management personnel

In addition to the directors noted above, the Responsible Entity is considered to be key management personnel with authority for the strategic direction and management of the Trust.

The Asset Manager, Five Oceans Asset Management Pty Limited, is a related party to the Trust by way of common director, Rob Adams until the 25th January 2011 then Rob Woods from this date onwards. Rob Adams was a director of both Challenger Managed Investments Limited and Five Oceans Asset Management Pty Limited until he resigned from the board of Challenger Managed Investments Limited on 25 January 2011. Rob Adams has been replaced on the Five Oceans Asset Management Pty Limited board by Rob Woods.

11 Related party transactions (continued)

Key management personnel unitholdings

The key management personnel of Challenger Managed Investments Limited held units in the Trust as follows:

2011

Unitholder	Number of units held opening (Units)	Number of units held closing (Units)	Interest held (%)	Number of units acquired (Units)	Number of units disposed (Units)	Distributions paid/payable by the Trust (\$)
Rob Adams	12	12	-	-	-	-
Total	12	12		-	-	-

2010

Unitholder	Number of units held opening (Units)	Number of units held closing (Units)	Interest held (%)	Number of units acquired (Units)	Number of units disposed (Units)	Distributions paid/payable by the Trust (\$)
Rob Adams	22	12	-	2	12	-
Total	22	12		2	12	-

Key management personnel compensation

No amount is paid by the Trust directly to the Directors of the Responsible Entity.

Compensation is paid to the Responsible Entity in the form of fees and is disclosed below.

Responsible Entity's fees and other transactions

Under the terms of the Trust's Deed, the Responsible Entity is entitled to receive management fees, calculated by reference to the average daily net assets (excluding net assets attributable to unitholders) of the Trust as follows:

- (i) 1.25% (2010: 1.25%) of the Seed class,
- (ii) 1.00% (2010: 1.00%) of the Professional class,
- (iii) 1.25% (2010: 1.25%) of the Wholesale class,
- (iv) 0.96% (2010: 1.25%) of the Premier class, and
- (v) 0.50% of the Alpha class.

In addition to the Responsible Entity's fee, the Responsible Entity is also entitled to receive performance fees. The performance fees are calculated at 20% (including GST) of the difference between the Fund's net return (after fees and expenses, and adding back any distributions) and the performance hurdle. The Fund's net return must exceed the performance hurdle in order for the performance fees to be paid. The performance hurdle is 5.0% pa.

For the year ended 30 June 2011, in accordance with the Trust Constitution, the Responsible Entity received performance fees for the seed class of 0.00% (2010: 0.00%), professional class of 0.00% (2010: 0.00%), wholesale class of 0.00% (2010: 0.00%), premier class of 0.00% (2010: 0.00%) and alpha class of 0.06% (inclusive of GST, net of RITC available to the Trust) per annum.

	30 June 2011 \$	30 June 2010 \$

Net change in receivables and other assets	(87)	(23)
Net change in payables and other liabilities	67	21
Net cash inflow/(outflow) from operating activities	(2,110)	751
(b) Components of cash and cash equivalents		
Cash as at the end of the financial year as shown in the statement of cash flows is reconciled to the statement of financial position as follows:		
Cash at bank	19,550	6,194
Cash invested in Cash Management Trust	-	13
Cash and cash equivalents	19,550	6,207
(c) Non-cash financing activities		
- reinvestment of unitholder distributions	52	516

13 Events occurring after the reporting period

No significant events have occurred since the reporting date which would impact on the financial position of the Trust disclosed in the statement of financial position as at 30 June 2011 or on the results and cash flows of the Trust for the year ended on that date.

14 Contingent assets and liabilities and commitments

There are no outstanding contingent assets and liabilities or commitments as at 30 June 2011 (30 June 2010: \$nil).

Directors' declaration

In accordance with the resolution of the Directors of Challenger Managed Investments Limited, I state that:

In the opinion of the Directors of the Responsible Entity:

- (a) the financial statements and notes set out on pages 8 to 33 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and
 - (ii) giving a true and fair view of the Trust's financial position as at 30 June 2011 and of its performance for the financial year ended on that date;
- (b) the financial statements and notes also comply with International Financial Reporting Standards as disclosed in note 2(a); and
- (c) there are reasonable grounds to believe that the Trust will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

On behalf of the Board of Directors of Challenger Managed Investments Limited.

BJ O'Connor
Director

Sydney

Independent auditor's report to the unitholders of Five Oceans World Fund

We have audited the accompanying financial report of Five Oceans World Fund, which comprises the statement of financial position as at 30 June 2011, the statement of comprehensive income, statement of changes in net assets attributable to unitholders and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' responsibility for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 2(a), the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Responsible Entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the Responsible Entity a written Auditor's Independence Declaration, a copy of which is attached to the directors' report.

Opinion

In our opinion:

- a. the financial report of Five Oceans World Fund is in accordance with the *Corporations Act 2001*, including:
 - i giving a true and fair view of Five Oceans World Fund's financial position of as at 30 June 2011 and of its performance for the year ended on that date; and

- ii complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- b. the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 2(a).
