Update to the buy and sell spread of the Fund

The buy/sell spread is a type of transaction cost that may include brokerage incurred by the investment manager, stamp duty, underlying security buy/sell spreads and other government taxes or charges. The purpose of the buy/sell spread is to ensure that only those investors transacting in the Fund's units at a particular time bear the Fund's costs of buying and selling the Fund's assets as a consequence of their transaction. We recently reviewed the buy/sell spread for the Fund.
