

Target Market Determination

Challenger Guaranteed Pension Fund

Legal disclaimer

This Target Market Determination (**TMD**) is required under section 994B of the *Corporations Act 2001* (Cth) (**the Act**). It sets out the class of consumers for whom the product, including its key attributes, would likely be consistent with their likely objectives, financial situation and needs. In addition, the TMD outlines the triggers to review the target market and certain other information. It forms part of Issuer's design and distribution arrangements for the product.

This document is **not** a product disclosure statement and is **not** a summary of the product features or terms of the product. This document does not take into account any person's individual objectives, financial situation or needs. Persons interested in acquiring this product should carefully read the Product Disclosure Statement (**PDS**) for the Product before making a decision whether to buy this product.

Important terms used in this TMD are defined in the TMD Definitions which supplement this document. Capitalised terms have the meaning given to them in the product's PDS, unless otherwise defined. The PDS can be obtained by contacting us on 13 35 66.

Target Market Summary

This is a managed fund that provides known, secure monthly payments made up of both capital and income. This product is likely to be appropriate for a consumer seeking regular income and is designed to be used as a small to core allocation within a consumer's portfolio. It is for consumers with a low-risk/return profile who are willing to invest for a minimum timeframe matching the maturity date and will not need access to their funds.

Description of Target Market

This part is required under section 994B(5)(b) of the Act.

TMD indicator key

The Consumer Attributes for which the product is likely to be appropriate have been assessed using a red/amber/green rating methodology with appropriate colour coding:

 In target market  Potentially in target market  Not considered in target market

Instructions

In the tables below, Column 1, Consumer Attributes, indicates a description of the likely objectives, financial situation and needs of the class of consumers that are considering this product. Column 2, TMD indicator, indicates whether a consumer meeting the attribute in Column 1 is likely to be in the target market for this product.

Generally, a consumer is unlikely to be in the target market for the product if:

- **one or more** of their Consumer Attributes correspond to a **red** rating, or
- **three or more** of their Consumer Attributes correspond to an **amber** rating.

Investment products and diversification

A consumer (or class of consumer) may intend to hold a product as part of a diversified portfolio (typically with an intended product use of *satellite/small allocation or core component*). In such circumstances, the product should be assessed against the consumer's attributes for the relevant portion of the portfolio, rather than the consumer's portfolio as a whole. For example, a consumer may seek to construct a conservative portfolio with a satellite/small allocation to growth assets. In this case, it may be likely that a product with a *High or Very High* risk/return profile is consistent with the consumer's objectives for that allocation notwithstanding that the risk/return profile of the consumer as a whole is *Low or Medium*. In making this assessment, distributors should consider all features of a product (including its key attributes).

| Consumer Attributes | TMD Indicator | Product description including key attributes |
|--|---------------|---|
| Consumer's investment objective | | |
| Capital Growth | | The Fund offers investors the opportunity to invest in units that provides regular monthly distributions until maturity. A portion of capital is returned with each monthly distribution with no capital returned at the maturity date. When you invest in the Fund, you purchase units in a particular class of the Fund. |
| Capital Preservation | | |
| Capital Guaranteed | | |
| Income Distribution | | |
| Consumer's intended product use (% of Investable Assets) | | |
| Solution/standalone (75-100%) | | The Fund invests in annuities provided by Challenger Life Company Limited (ABN 44 072 486 938) (AFSL 234670) (Challenger Life) that closely match the distributions and maturity profile of the relevant class. The Fund may also hold cash. The Fund has low portfolio diversification. |
| Core component (25-75%) | | |
| Satellite/small allocation (<25%) | | |
| Consumer's investment timeframe | | |
| Short (\leq 2 years) | | The fund offers different classes of units with varying maturity dates. Investors are able to choose the class that best suits their investment horizon. The maturity date for this class is 31 December 2023. The suggested minimum investment timeframe is the class maturity date. |
| Medium ($>$ 2 years) | | |
| Long ($>$ 8 years) | | |
| Consumer's Risk (ability to bear loss) and Return profile | | |
| Low | | Each class of units within the fund provide a guaranteed income distribution. The Product has a low-risk/ low return profile. |
| Medium | | |
| High | | |
| Very high | | |
| Consumer's need to withdraw money | | |
| Daily | | Units in each class are designed to be held to maturity. Generally, early withdrawals before the class maturity date are possible using an early withdrawal value, and you may receive back significantly less than you would have if you held your investment to the maturity date. Withdrawals are usually processed within five business days of receiving your withdrawal request, however we do not guarantee this timeframe. We may take significantly longer to pay withdrawals. The constitution for the Fund does allow the Issuer up to 30 days to process a redemption and allows for suspension of redemptions under abnormal circumstances. |

Definitions

| Term | Definition |
|--|--|
| Consumer's investment objective | |
| Capital Growth | The consumer seeks to invest in a product designed to generate capital return. The consumer prefers exposure to growth assets or otherwise seeks an investment return above the current inflation rate. |
| Capital Preservation | The consumer seeks to invest in a product to reduce volatility and minimise loss in a market down-turn. The consumer prefers exposure to defensive assets (such as cash or fixed income securities) that are generally lower in risk and less volatile than growth investments.. |
| Capital Guaranteed | The consumer seeks a guarantee or protection against capital loss whilst still seeking the potential for capital growth (typically gained through a derivative arrangement). The consumer would likely understand the complexities, conditions and risks that are associated with such products. |
| Income Distribution | The consumer seeks to invest in a product designed to distribute regular and/or tax-effective income. The consumer prefers exposure to income-generating assets (typically, high dividend-yielding equities, fixed income securities and money market instruments). |
| Consumer's intended product use (% of Investable Assets) | |
| Solution/standalone (75-100%) | The consumer intends to hold the investment as either a part or the majority (up to 100%) of their total investable assets (see definition below). The consumer typically prefers exposure to a product with at least High <i>portfolio diversification</i> (see definitions below). |
| Core component (25-75%) | The consumer intends to hold the investment as a major component, up to 75%, of their total investable assets (see definition below). The consumer typically prefers exposure to a product with at least Medium <i>portfolio diversification</i> (see definitions below). |
| Satellite (<25%) | The consumer intends to hold the investment as a smaller part of their total portfolio, as an indication it would be suitable for up to 25% of the total investable assets (see definition below). The consumer is likely to be comfortable with exposure to a product with Low <i>portfolio diversification</i> (see definitions below). |
| Investable Assets | Those assets that the investor has available for investment, excluding the family home. |
| Portfolio diversification (for completing the key product attribute section of consumer's intended product use) | |
| Low | Single asset class, single country, low or moderate holdings of securities - e.g. high conviction Aussie equities. |
| Medium | 1-2 Asset Classes, Single Country, Broad exposure within asset class, e.g. Aussie Equities All Ords. |
| High | Highly diversified across either asset classes, countries or investment managers, e.g. Australian multi-manager balanced fund or Global Equities extending beyond benchmark. |
| Consumer's intended investment timeframe | |
| Short (\leq 2 years) | The consumer has a short investment timeframe and may wish to redeem within two years. |
| Medium (> 2 years) | The consumer has a medium investment timeframe and is unlikely to redeem within two years. |
| Long (> 8 years) | The consumer has a long investment timeframe and is unlikely to redeem within eight years. |
| Consumer's Risk (ability to bear loss) and Return profile | |
| Low | The consumer is conservative or low-risk in nature, seeks to minimise potential losses (e.g. has the ability to bear up to 1 negative return over a 20 year period (SRM 1 to 2)) and is comfortable with a low target return profile. Consumer typically prefers defensive assets such as cash and fixed income. |
| Medium | The consumer is moderate or medium risk in nature, seeking to minimise potential losses (e.g. has the ability to bear up to 4 negative returns over a 20 year period (SRM 3 to 5)) and comfortable with a moderate target return profile. Consumer typically prefers a balance of growth assets such as shares, property and alternative assets and defensive assets such as cash and fixed income. |
| High | The consumer is higher risk in nature and can accept higher potential losses (e.g. has the ability to bear up to 6 negative returns over a 20 year period (SRM 6)) in order to target a higher target return profile. Consumer typically prefers predominantly growth assets such as shares, property and alternative assets with only a smaller or moderate holding in defensive assets such as cash and fixed income. |
| Very high | The consumer has a more aggressive or very high risk appetite, seeks to maximise returns and can accept higher potential losses (e.g. has the ability to bear 6 or more negative returns over a 20 year period (SRM 7) and possibly other risk factors, such as leverage). Consumer typically prefers growth assets such as shares, property and alternative assets. |
| Consumer's need to withdraw money | |
| Daily/Weekly/Monthly/ Quarterly/ Annually or longer | The consumer seeks to invest in a product which permits redemption requests at this frequency under ordinary circumstances and the issuer is typically able to meet that request within a reasonable period. |

| Distributor Reporting | |
| Significant dealings | <p>Section 994F(6) of the Act requires distributors to notify the issuer if they become aware of a significant dealing in the product that is not consistent with the TMD. Neither the Act nor ASIC defines when a dealing is 'significant' and distributors have discretion to apply its ordinary meaning.</p> <p>The issuer will rely on notifications of significant dealings to monitor and review the product, this TMD, and its distribution strategy, and to meet its own obligation to report significant dealings to ASIC.</p> <p>Dealings outside this TMD may be significant because:</p> <ul style="list-style-type: none"> • they represent a material proportion of the overall distribution conduct carried out by the distributor in relation to the product, or • they constitute an individual transaction which has resulted in, or will or is likely to result in, significant detriment to the consumer (or class of consumer). <p>In each case, the distributor should have regard to:</p> <ul style="list-style-type: none"> • the nature and risk profile of the product (which may be indicated by the product's risk rating or withdrawal timeframes), • the actual or potential harm to a consumer (which may be indicated by the value of the consumer's investment, their intended product use or their ability to bear loss), and • the nature and extent of the inconsistency of distribution with the TMD (which may be indicated by the number of red or amber ratings attributed to the consumer). <p>Objectively, a distributor may consider a dealing (or group of dealings) outside the TMD to be significant if:</p> <ul style="list-style-type: none"> • it constitutes more than half of the distributor's total retail product distribution conduct in relation to the product over the reporting period, • the consumer's intended product use is <i>Solution / Standalone</i>, or • the consumer's intended product use is <i>Core component</i> and the consumer's risk (ability to bear loss) and return profile is <i>Low</i>. |
